Can I enjoy other promotions/offers from Time at the same time?

Unfortunately, no. You can only enjoy one promotion at any time. Once submitted, you will not be able to change or select other promotions until after your service is activated, as long as it's still within the promotion period.

Can I upgrade/downgrade my plan after I redeem this promotion?

Yes, absolutely! What's more, if you upgrade within the promotion period, you'll get to enjoy the promotion attached to the new upgraded plan, be it bill rebates and/or discounted devices. However, you will forfeit the discount you initially enjoyed and your 24-month contract will be reset.

If you upgrade your plan after the promotion period, any discount you may be enjoying will continue with no contract reset.

Any downgrade will result in the forfeiture of the discount and you'll only be able to downgrade after the first 6 months of your contract.

What if I terminate my subscription?

If you terminate your subscription within the first 6 months of your contract, you will:

- Forfeit any discount you've been enjoying;
- Incur a device penalty equivalent to the value of the free WiFi 5 mesh node (RM169); and
- Incur an early termination penalty of RM500.

If you terminate your subscription within your 24-month contract term, you will be charged a RM500 early termination penalty.

How do I sign up for this promotion?

You can sign up online via www.time.com.my or through our authorised dealers.

If I subscribe during the promotion period but schedule the installation after the validity period, will I still be entitled to the promotion?

Yes, you will still be entitled to the promotion as long as you sign up within the promotion period. However, if the installation has not taken place within 2 months of your subscription date, your application will be automatically withdrawn and you will no longer be entitled to the promotion

How will I receive the promotion discount once I have subscribed to the service?

The discounts will be deducted from your first full month's bill or the monthly bills of your first 6 months, whichever applicable. However, other charges such as voice calls, deposits, add-ons etc still apply.

The free device will be installed by us free of charge during service activation.

If my first month's broadband subscription fee is free, why am I still being charged in my first bill?

The First Month On Us promotion for 100Mbps plans applies to your first full month's broadband fees. The charges you're seeing in your very first bill may be pro-rated charges leading up to your first full month or other charges such as voice calls, add-ons etc.
